

LARGE OLD TREES
ARE THE
SUPERHEROES
OF OUR LANDSCAPE.

BUT WHY ARE THEY SO
IMPORTANT?

LARGE OLD TREES
PROVIDE HABITAT
AND FOOD SOURCES FOR

THREATENED BIRDS

MAMMALS

REPTILES

AND AMPHIBIANS.

MAKING THEM VITAL
LANDSCAPE CONNECTORS.

BUT EVEN HEROES NEED ALLIES.

LARGE OLD TREES ARE BECOMING INCREASINGLY HARD TO FIND BECAUSE OF:

'CLEANING UP'
DEAD AND
FALLEN TIMBER

REMOVAL
OF UNDERSTOREY

SET-STOCKING

CROPPING

SOWING OF
EXOTIC PASTURES

CHEMICALS

ITS TIME FOR US TO STEP IN AND GIVE THEM A HELPING HAND!

LETS PROTECT AND REVITALISE NATURE'S ELDERS.

YOU CAN START BY HELPING US MAP THE LARGE OLD TREES IN YOUR REGION.

GO TO:

biolinksalliance.org.au/protect-and-connect

AND FIND OUT HOW.
