Program

From Friday 16 October – Keynote Addresses

Keynote Addresses available online for viewing.

We encourage you to watch the Keynotes and bring your questions to put to presenters at dedicated Keynote Q&A sessions on the live Symposium days (27 – 28 October)

Professor David Lindenmayer, Australian National University "*Examining changes in Greater Gliders population from several large-scale, long-term studies includes empirical analyses that quantify the impacts of various drivers of change*"

Benjamin Wagner, Melbourne University "*Predicting habitat suitability for greater glider (Petauroides volans) using remote sensing: implications for conservation planning*"

Associate Professor Craig Nitschke, Melbourne University "*Conservation Planning in Dynamic Environments*"

Dr Kara Youngentob, Australian National University "*Overlooked driver of decline--the influence of temperature on food intake in arboreal folivores*"

Denise McGregor, James Cook University "*Conserving and recovering Victorian populations of the Greater Glider*"

Professor David Lindenmayer Australian National University, "*Temporal changes in populations of arboreal marsupials, including gliders in the Grassy Box-gum woodlands of southern Australia over the past 22+ years based on a series of long-term observational studies and experiments*"

Associate Professor Ross Goldingay Southern Cross University "*Squirrel Gliders: Nest box use and population monitoring*"

Dr Rodney Van Der Ree University of Melbourne & WSP Australia "*Maximising learning opportunities while replacing tree hollows for wildlife*" originally presented at 2019 TreeNet conference

Dr Rodney Van Der Ree University of Melbourne & WSP Australia "*Connecting habitat across roads*" originally presented at 2019 TreeNet conference

Gary Howling, Great Eastern Ranges "*Restoring habitat connections for Australia's unique gliding mammals*".

Tuesday 27 October, Greater Gliders

Live webinars and workshops

9am - 10am Greater Glider State of Play webinar with Professor David Lindenmayer, Ed Hill, Dr Teresa Eyre, Dr Jenny Nelson and facilitated by Gregg Borschmann

10:15am - 11am Q & A with keynote speakers PhD. candidate Benjamin Wagner, Associate Professor Craig Nitschke and Dr Kara Youngentob

11:15pm - 12pm Survey design and monitoring workshop

1:15pm - 2pm Permanent protection workshop

2:15pm - 3pm Mitigation strategies workshop

3:15pm - 4pm Q & A with Gary Howling 'Great Eastern Ranges Glideways Program'

Wednesday 28 October, Squirrel Gliders

Live webinars and workshops

9am - 10am Squirrel Glider State of Play webinar with Dr Mason Crane, Dr Rodney Van Der Ree, Associate Professor Ross Goldingay, Jerry Alexander and facilitated by Gregg Borschmann

10:15am - 11am Q & A with keynote speaker Professor David Lindenmayer

11:15am - 12pm Q & A with keynote speakers Associate Professor Ross Goldingay and Dr Rodney Van Der Ree

1:15pm - 2pm Survey design and monitoring workshop

2:15pm - 3pm Citizen science, community engagement and data quality workshop

3:15pm - 4pm Habitat health and restoration workshop

Symposium live event tickets \$5 each + booking fee. Keynotes & Q&As free of charge.
Book for a single or multiple sessions.
